

DON OUT

by Nacho Timón

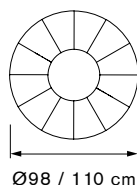

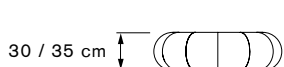

There are two things that characterise the Don Out series: the most original of designs, and great flexibility. During the day or the night, in & out... Use it in any surrounding you want to adapt your needs. They are products that have been designed for you to play around with. Use the sofa as an attractive and modern seat or separate the pieces and create different puffs in one or many colours, which will give your space that touch of originality and colour that it needs. This collection will not go unnoticed, both because of its practicality and the fun aspect it will give to your garden, living room or wherever you like.

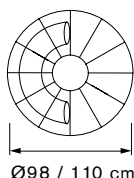

Hay dos cosas que caracterizan la serie Don Out: un diseño de lo más original y una gran versatilidad. De día o de noche, in & out... Adáptala al entorno y a tus necesidades como quieras. Son productos especialmente pensados para que juegues con ellos. Usa el sofá como un atractivo y moderno asiento o separa las piezas y crea diversos pufs monocromo o multicolor que darán ese toque de originalidad y color que cualquier espacio necesita. Una colección que no pasará desapercibida, tanto por su practicidad como por el juego que dará en tu jardín, en el salón o allá donde quieras.
