Filling for Agora 3D

100% BIOPS PES Filling

Composed of biomass beads obtained from plant waste. Lightweight and resistant. Suitable for pool use.

Filling for other fabrics

Mixture (70% shredded foam & 30% BIOPS PES)

A mixture that brings comfort and sustainability. Ideal for outdoor use, not suitable for pool use.

Filling options for Mandarin Compact XXL

High-density, 30 kg/D foam filling

Compact foam that guarantees durability and resistance, maintaining its shape over time. For indoor spaces and covered terraces.
